Job Title	Graduate Architect	Date Posted	11 th December 2018
Location	Melbourne	Reference Code	MEL_GA_2018
Employment Type	Full-Time	Salary Range	\$50,000 - \$70,000 plus super

Job Description

Bates Smart seeks a talented Graduate of Architecture with a minimum of 2 years post Graduate experience to join our award winning architectural and interiors team. This is a position suitable for an ambitious graduate with a passion and skill in the front end of design projects.

The successful candidate will join a passionate creative team working on a broad range of interesting projects including workplace, residential and hospitality projects.

The candidate will be a graduate of a recognised architecture faculty and previous work experience is essential. We recognise internship and student employment. The position requires an individual with design flare, 3D and parametric modelling skills, an eagerness to learn, and good teamwork skills. Computer literacy in Revit (must) Rhino, Grasshopper, Dynamo and Revit would be preferred.

We are always looking for strong design talent and encourage direct applications at any time. You must have working rights in Australia to be considered for this role.

Our Employment Philosophy

Bates Smart believes in its individuals. We support cultural and gender diversity and aim to provide employees with a challenging and exciting work environment.

We strive to invest in our people and to bring out individual talents. We build trust and foster strong working relationships both internally and externally. We want to be the place where you want to work.

Some of our initiatives include:

- / An 'All Roles Flex' policy allowing the option for flexible working arrangements
- / Training and professional development opportunities
- / A social program that includes activities such as regular staff morning teas, team and sporting events, fundraising and charitable events, Friday night drinks, and guest speaker events
- / Variety of work to suit different interests, experience and goals, as well as the opportunity for individuals to move between different types of projects and sectors
- / Paid study leaves for permanent employees whose study is specifically related to their work at Bates Smart
- / Opportunities to be involved in internal research projects resulting in the publication of our White Papers and Bates Smart Journal articles on design innovation and trends
- / Exposure to leading technologies in virtual reality and computational design

To Apply

To be eligible and considered for this position you must hold a valid work permit in Australia

Please submit your resume and portfolio (less than 10MB) to careers@batessmart.com with the following reference in the subject line - **MEL_GA_2018**
