Current Job Opportunity

Job Title	Graduate of Architecture	Date Posted	21 April 2021
Location	Sydney	Reference Code	WP/GRAD-ARCH
Employment Type	Full-Time		

Job Description

Bates Smart seeks an experienced Graduate of Architecture for a delivery documentation position to join our award winning architectural and interiors team in our Sydney studio.

This is a support role for delivery documentation, from Design Development through to Construction documentation phases. To be considered for this role you must be experienced in Revit documentation and have local project experiences with 3 to 5 years' post-study work experience. Project experience in medium to large scale commercial, residential, and/or mixed-use sectors will be highly valued.

The successful candidate will join a passionate creative team working on a broad range of exciting projects. You will have strong design and communication skills, and ideally prior experience within a recognised firm.

Our Employment Philosophy

Bates Smart believes in its individuals. We support cultural and gender diversity and aim to provide employees with a challenging and exciting work environment. We strive to invest in our people and to bring out individual talents. We build trust and foster strong working relationships both internally and externally. We want to be the place where you want to work.

Some of our initiatives include:

- / An 'All Roles Flex' policy allowing the option for flexible working arrangements
- / Training and professional development opportunities
- / A social program that includes activities such as regular staff morning teas, team events, fundraising and charitable events, Friday night drinks, and guest speaker events
- / Variety of work to suit different interests, experience and goals, as well as the opportunity for individuals to move between different types of projects and sectors
- / Paid study leaves for permanent employees whose study is specifically related to their work at Bates Smart
- / Opportunities to be involved in internal research projects resulting in the publication of our White Papers and Bates Smart Journal articles on design innovation and trends
- / Exposure to leading technologies in virtual reality and computational design

Preferred Skills and Experience

- / Relevant qualification in Architecture (Master of Architecture or equivalent)
- / 3 to 5 years' post-study work experience
- / Must be experienced in Revit documentation
- / Must have local experience
- / Experience in medium to large scale commercial, residential, and/or mixed-use sectors projects
- / Strong communication and teamwork skills
- / Competency in AutoCAD, Sketch-up, Adobe Suite and Microsoft Office Suite

To Apply

To be eligible for this position, you must have a valid working visa.

Please submit your resume and portfolio (less than 10MB) to careers@batessmart.com with the following reference in the subject line – **WP/GRAD-ARCH**
